

Learning Services operates two nationally recognized Neuro-behavioral Institutes. Delivered in safe, barrier-free settings, these services abate the behaviors that interfere with an individual's rehabilitation progress. Using a data-driven treatment approach, factors influencing progress can be quickly identified, with immediate modifications made to the rehabilitation plan. This approach creates the foundation for individuals to achieve their personal goals and functional outcomes.

Comprehensive Team Approach

Trans-Disciplinary Rehabilitation Team

Medical Oversight

Transitional living opportunities

Prosthetic environments

Psychosocial Development

Individual counseling

Family education and counseling

Community integration

Group participation

Financial Partnerships

National agreements

TriCare/Military Active Duty

Dynamic reimbursement structure

Pre-admission screenings

The Learning Services neuro-behavioral programs employ professionals with vast neurological experience and knowledge. These individuals are available to discuss appropriate services and options for people dealing with challenges associated with an acquired brain injury. In addition to providing consultations, our free pre-admission screenings offer professional recommendations specific to the individual's rehabilitation needs and goals.
